

# Religion, Meet Science

*(Chapter 3)*

Brennan Fieck, Brionna Dumlao  
Nathan Fishel, Erin Hamand  
Kendyll Hawkins, Kris Lide  
Matthew McDonald, Zacary Parkhill

October 20, 2017

## In the Beginning

- The United States

- God's Natural Law is Reason

## The DNA of Western Thought

## How Do We Know Things?

## Installation

- Source files

- Local and Global installation

- Required Packages

## User Interface

- Loading the Theme and Theme Options

- Feather image

# In the Beginning

## The United States

- ▶ Settled by Christians - the Puritans.

# In the Beginning

The United States

- ▶ Settled by Christians - the Puritans.
- ▶ Founded on science - logic and reason.

- ▶ Settled by Christians - the Puritans.
- ▶ Founded on science - logic and reason.
  - ▶ Logic and reason helped ensure religious freedom
  - ▶ This is why religious mentality was not incorporated into the Declaration of Independence

From approx. 700 C.E. to 900 C.E.

- ▶ Mu'tazilites mode of study
  - ▶ Discern God's will by studying nature
  - ▶ God speaks through nature

Figure: Mu'tazilite Science

1517 C.E.

- ▶ Martin Luther nails his 95 theses to the door of a Catholic church to protest the Church's practices
  - ▶ Protestants argued that knowledge comes from observing God's Word, not the Pope's word

Figure: Martin Luther

1518 C.E.

- ▶ Protestant polemicist St. Germain supports "do it yourself" Bible study
    - ▶ Protestants argued that knowledge comes from observing God's Word, not the Pope's word
    - ▶ Use one's own experience of the Bible to find truth
- This approach is in the same "anti-authoritarian" vein as the modern scientific approach (make observations, then come to conclusions)

Figure: Martin Luther

## Early 1600's

- ▶ Puritan sympathizer Edward Coke argues that scientific laws could be studied by everyone, and could not be overruled by the crown.

Figure: Edward Coke

Late 1500's to mid 1600's

- ▶ Puritans supported a logical, antiauthoritarian approach to theology:
  - ▶ Making your own observations from the Bible and not relying on the Pope
  - ▶ Use observations to draw broader theological conclusions
  - ▶ Puritans study Mu'tazilite science books

Figure: Edward Coke

# The DNA of Western Thought

Western Christianity is composed of two main groups:

- ▶ Roman Catholicism
- ▶ Protestantism

# How Do We *Know* Things?

(auth. Brennan Fieck)

- ▶ The Feather image is not covered by copyright rules. I have used the image from <http://www.vectors-free.com/> . You are allowed to use the Feather image for any purposes.
- ▶ The rest of the theme is provided under the GNU General Public License v. 3 (GPLv3) <http://www.gnu.org/licenses/> . This means that you can redistribute it and/or modify it under the same license.

The theme contains 4 source files:

- ▶ `beamercolorthemeFeather.sty`
- ▶ `beamerouterthemeFeather.sty`
- ▶ `beamerinnerthemeFeather.sty`
- ▶ `beamerthemeFeather.sty`

# Installation

Local and Global installation

The theme can be installed for **local** or **global** use.

The theme can be installed for **local** or **global** use.

### Local Installation

- ▶ Local installation is the simplest way of installing the theme.
- ▶ You need to placing the 4 source files in the same folder as your presentation. When you download the theme, the 4 theme files are located in the `local` folder.

### Global Installation

- ▶ If you wish to make the theme globally available, you must put the files in your local latex directory tree. The location of the root of the local directory tree depends on your operating system and the latex distribution.
- ▶ Detailed steps on how to proceed installation under various operating systems can be found at Beamer documentation.

For using the Feather Theme you will need the Bemaer class installed and the following 2 packages

- ▶ TikZ<sup>1</sup>
- ▶ calc

Due to the fact that the packages are very common they should be included in your latex distribution in the first place.

---

<sup>1</sup>TikZ is a package for creating beautiful graphics. Have a look at these [online examples](#) or the [pgf user manual](#).

### The Presentation Theme

The Feather Theme can be loaded in a familiar way. In the preamble of your `tex` file you must type

```
\usetheme[<options>]{Feather}
```

The presentation theme loads the inner, outer and color Feather theme files and passes the `<options>` on to these files.

### The Inner and Outer Themes

If you wish you can load only the inner, or the outer theme directly by

```
\useinnertheme{Feather} (and it has no options)
```

```
\useoutertheme[<options>]{Feather} (it has one option)  
    progressstyle={fixedCircCnt or movingCircCnt}
```

- ▶ which set how the progress is illustrated;
- ▶ the value `movingCircCnt` is the default.

### The Color Theme

Also you can load only the color theme by writing in the preamble of the `tex` file

- ▶ `\usecolortheme{Feather}`

...or to change the colors of the various elements in the theme

- ▶ Change the bar colors:  
`\setbeamercolor {Feather}{fg=<color>, bg=<color>}`
- ▶ Change the color of the structural elements:  
`\setbeamercolor{structure}{fg=<color>}`
- ▶ Change the frame title text color:  
`\setbeamercolor{frametitle}{fg=<color>}`
- ▶ Change the normal text color background:  
`\setbeamercolor{normal text}{fg=<color>, bg=<color>}`

## The Feather Background Image

- ▶ In Feather theme, the title page frame and the last frame have the Feather image as the background image.
- ▶ The Feather background image can be produced to any frame by wrating on the begining at the choosen frame the following

```
{\1bg  
\begin{frame}[<options>]{Frame Title}{Frame Subtitle}  
...  
\end{frame}}
```

A decorative graphic on the right side of the slide, consisting of multiple overlapping, curved, feather-like or wave-like shapes in shades of light blue and white, with some small white dots scattered within the curves.

Thank you for using Feather Beamer Theme!
